**Invitation for Training Workshop at IIT Delhi**

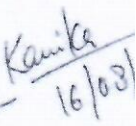

We are pleased to announce that Indian Institute of Technology (IIT), Delhi has organised a training workshop on various cutting-edge topics such as: **5G Physical Layer, Li-Fi, IoT, and End to End 5G Network Security**. This training comprises of two parts: lecture and Hands-on in-person. The industry talks are scheduled in-person as well, so participants will get a chance to interact directly with the experts. The final year students are advised to participate in the above training workshop at IIT Delhi at least for one day (one topic). All the participants will receive the certificate from the IIT Delhi for attending the workshop. Details of the training workshop (date and timings) and registration link will be made available to you as and when received from IIT Delhi.

Note that the seats are limited, therefore the students can attend on first come first basis. Your participation shall be greatly appreciated by IIT Delhi. Any query related to the above may be asked to the faculty members mentioned below:

  
Prof Sunil Kumar  
HOD ECE
